## AN ELECTRONIC VACCINATION RECORD FOR ALL

## WHY ? HOW ?

## WHY ?

The electronic vaccination record (CVE - Carnet de Vaccination Électronique) is a digital tool set up by the Agence eSanté, commissioned by the Direction de la santé. It allows you to **centralise your vaccination data**, which were previously written on your yellow card. It indicates the recommendations of the Conseil Supérieur des Maladies Infectieuses (CSMI).

You can consult it **at any time and anywhere** - via your eSanté account - on [www.esante.lu](http://www.esante.lu).

The health professionals to whom you give permission can also access your vaccination history and status.

## HOW ?

The CVE is only **created and completed** by the vaccinating physician with your consent.

To access your CVE, you just need to **activate your eSanté account** in a few clicks (use the QR code hereby).

If you need personal assistance for this activation, please contact our Helpdesk:

- by phone: (+352) 27 12 50 18 33
- by email: [helpdesk@esante.lu](mailto:helpdesk@esante.lu)

## SIMPLE AND SECURE ACCESS

Scan this QR code to **activate your eSanté account** in a **few clicks** and access your CVE and other digital health services

## WHAT ABOUT THE CONSENT ?

Upon creation of the CVE, your vaccinator asks for your consent to **open it**.

You can also give your consent for the CVE to be transferred to your DSP (Dossier de Soins Partagé) and for the **automatic retrieval of the COVID-19 vaccination data**.

Your **personal space** within the CVE allows you to manage these different consents.
